

KEYWORD INDEX FOR 2004

- Accelerated conditions – 111
β-Adrenergic receptor blockers - 108
Alcohol and abused drugs - 169
Alcoholism subtypes – 159
Amitriptyline HCl - 195
Amniotic fluid - 155
Anatomical studies - 156
Angular pyranocoumarins - 156
Antibacterial activity - 1
Anticonvulsant activity – 185
Antidepressants - 195
Antifungal activity – 1, 211
Antiinflammatory activity – 51, 109
Antimicrobial activity – 1, 155, 211
Antimicrobial effect - 211
Antinociceptive activity -51
Antioxidant – 212
Antioxidative compounds - 203
Antipyretic activity -51
Aphrodisiac – 213
6-Arylhexahydropyrimidine-2,4-diones -1
Bacterial transformation -7
Benzamide - 211
Benzoxazole - 211
Bioavailability – 39, 133
Blood plasma - 15
Calcium channel blockers - 108
Carbamodithioic acid esters - 1
Cationic lipids - 7
CEDIA[®] DAU - 169
Chemotaxonomy - 109
Clematis –51
Conductimetry – 195
Cotton seed - 203
Coumarin - 213
Covalent binding - 81
Crystal metal ions - 81
Crystal water molecules - 81
Cyclodextrin - 27
Database filtering – 81
Derivative UV spectrophotometry – 121
Diagnostic medical imaging - 145
Diflunisal – 121
4,5-Dihydropyridazine-3(2H)-one - 185
Dissolution - 21
Dissolution profile comparison methods – 53
N,N-Disubstituted carbamodithioic acid 3-ethyl-6-arylhexahydropyrimidine-2,4-dione esters - 1
Docking – 81
Dothiepin HCl – 195
DPPH radical scavenging activity - 203
Drug interactions - 39
Energy of binding - 81
Epidermal growth factor - 71
Escherichia coli - 7
Ethnobotanical research - 157
Factorial design - 21
Felamedin - 213
Ferulago - 213
Film-badge dosimeter - 77
Flavone glucosides - 109
Flexibility - 81
Floristic research - 157
Free radical scavenging property (antioxidant activity) - 109
Furanocoumarin – 213
Gamma-emitting radionuclides - 145
Glasgow coma scale - 169
Gliclazide - 21
Hansch analysis - 211
Headspace gas chromatography - 169
Hexahydropyrimidine-2,4-diones - 1
HPLC - 213
HPLC analysis - 156
HPLC method - 108
Human – 15
Humidity - 111
Ibuprofen – 177
Improvement in knowledge - 117
Inclusion complex formation ability - 27
Indole – 212
Inhibition of AGEs - 203

Inhibition of lipid peroxidation - 203
 IR spectroscopy - 108
 Iridoid glycosides - 109
 Ischemia-reperfusion – 64
 KCl - 127
 Large-ring cyclodextrin - 27
 Lipid peroxidation – 212
 Malondialdehyde – 15
 Melatonin – 127, 212
 Meloxicam - 53
 Metronidazole - 39
 Microspheres – 111, 177
 Monoamine oxidase – 64, 159
 Monoterpene glucoside - 109
 Mullein – 93
 NaF - 127
 Neolignan glucosides – 109
 Nuclear medicine - 145
 Optimization – 21
 Ornidazol – 133
 6-Oxo-5,6-dihydropyridazinylacetate - 185
 6-Oxo-5,6-dihydropyridazinylacetic acid - 185
 6-Oxo-5,6-dihydropyridazinylacetohydrazide - 185
 Personnel dosimeter – 77
 Pharmacist education - 117
 Pharmacokinetics – 39, 133
 Pharmacology - 39
 Phenylacetamide - 211
 Phenylephrine - 127
 Phenylethanoid glycosides – 109
 Physicochemical properties - 133
 Physicochemical property – 27
 Phytochemical screening - 157
 Pınarbaşı - 157
 Plasmid DNA - 7
 Platelet – 159
 PLGA - 111
 Positron-emitting radionuclides - 145
 Prantschimgin – 213
 Preconditioning - 64
 Production – 27
 Professional Inservice Education - 117
 Quantitative determination - 108
 Quantitative structure-activity relationships - 211
 Rabbits – 71
 Radiopharmaceutical agents - 145
Ranunculaceae -51
 Rape seed – 203
 Rat anococcygeus muscle – 127
 Safflower seed - 203
 Saponins - 109
 Scrophulariaceae - 93, 109
 Serotonin (5-HT) - 159
Seseli – 156
 Spectrofluorimetry - 121
 Spectrophotometry – 15
 Stability – 111, 133
 Supercoiled DNA strand scission preventing activity – 203
 Sustained-release suppository - 177
 Synthesis – 1
 Tablet analysis – 121
 Temperature - 111
 Thermoluminescent dosimeter – 77
 Tranilcypromine hemi-sulphate - 195
 Trauma score - 169
 Umbelliferae – 156, 213
 Urethral healing - 71
 UV spectroscopy (absorbance ratio and Vierordt methods) - 108
 Validation - 15
Verbascum cilicicum - 109
Verbascum L. species - 93
Verbascum pterocalycinum var. *mutense* - 109
Verbascum salviifolium -109
 Wound healing - 71
 Zwitterionic surfactants - 7
